

## Will The Circle Be Unbroken

          D                          D7  
I was standing by my window  
          G                          D  
On a cold and cloudy day  
          D                          Bm  
When I saw the hearse come rollings  
          D                  A7          D  
For to carry my mother away

Chorus:

          D                          D7  
Will the circle be unbroken  
          G                          D  
By and by Lord, by and by  
          D                          Bm  
There's a better home a-waiting  
          D                  A7          D  
In the sky Lord in the sky

          D                          D7  
Lord I told that undertaker  
          G                          D  
Undertaker, please drive slow  
          D                          Bm  
For this lady you are hauling  
          D                  A7          D  
Lord I hate to see her go

          D                          D7  
I have followed close behind her  
          G                          D  
Tried to hold up and be brave  
          D                          Bm  
But I could not hide my sorrow  
          D                  A7          D  
When they laid her in the grave

Chorus

          D                          D7  
I was born down in the valley  
          G                          D  
Where the sun refused to shine  
          D                          Bm  
But I'm climbing up to the highlands  
          D                  A7          D  
Gonna make that mountain mine

Chorus
